PUBLIC HEARINGS

A. 6:30 PM – W1612 – Application of the Mansfield non-Profit Housing Development Corporation (owner/applicant) for a multifamily development at 113-121 S. Eagleville Rd. (Parcel ID 16.57.5)

Rawn opened the Public Hearing at 6:34 p.m. Members present are Accorsi, Chandy, Cooley, Plante, Rawn and Ward. Alternate members DeVivo and Fratoni are seated for absent members. J. Kaufman read the Legal Notice that was published in *The Chronicle* on 2-18-2020 and 02-26-2020. Kaufman noted two additional documents, the 02-26-2020 Draft Minutes from the Conservation Commission that speak to this application and the letter from UConn dated 03-02-2020.

Kathy Dorgan of Dorgan Architecture and Planning and Robert Newton of BSC Group are present on behalf of the applicant. Dorgan gave an overview of the project including site design, driveway, structure on the property that will remain, design of buildings and different unit configurations. Newton gave an overview of the site in relation to the wetlands, stating that approximately 1 acre of the project will be developed within the upland review area. He noted grade changes, stormwater collection systems, detention basins and outlets, test pit data and

that public water and sewer will serve the site. He indicated that he is submitting the revised stormwater management plan.

Chuck Eaton from CHA and James Sipperly, Soil Scientist, are present on behalf of the Agency. Sipperly discussed the wetland delineation. During the site visit he noted standing water and vegetation that may have been indicative of a wetland. This issue has since been resolved by the applicant's soil scientist. Sipperly discussed recommendations with regard to native plantings, fertilizer, snow removal and de-icing materials. He also noted the importance of sedimentation and erosion controls during construction and regular reporting.

There were no speakers from the public regarding this application.

Ward questioned if best practices regarding protection of the wetlands would be applied during construction. Newton responded that the maintenance schedule is listed on the plans and that the applicant is agreeable to reporting.

Rawn questioned the use of fertilizer at the site and Newton responded that the landscape plan calls for native plantings for a low maintenance landscape. Newton also reviewed the snow stockpile locations on the site plan and indicated that they had been moved further away from wetlands than on previous plans.

Ward MOVED, Plante seconded to close the public hearing at 7:12 p.m.
