

Regulated activity (also see upland review area) means any operation within or use of a wetland or watercourse involving removal or deposition of material, or any obstruction, construction, alteration or pollution, of such wetlands or watercourses, but shall not include the specified activities in Section 22a-40 of the Connecticut General Statutes. Furthermore, any clearing, grubbing, filling, grading, paving, excavating, constructing, depositing or removing of material and discharging of storm water or other activity on the land within one hundred and fifty (150) feet measured horizontally from the boundary of any wetland or watercourse is a regulated activity. The Agency may also rule that any other activity located within an upland review area or in any other non-wetland or non-watercourse area is likely to impact or affect wetlands or watercourses and is a regulated activity.

Upland Review Area means all land within one hundred and fifty (150) feet from the edge of a wetland or a watercourse, as measured horizontally from the boundary of any wetland or watercourse and in addition, areas at a greater distance than 150 feet from the edge of a wetland or watercourse where in the determination of the agency proposed activities are likely to impact or affect wetlands or watercourses.
