

Name: _____

Class #: _____

Geometry Math Classwork and Homework

9-12 to 9-19

Class Day	Lesson	Classwork	Homework	Due Date	
Mon	1.3 Creating Definitions	Definitions of angles: Right, Acute, Obtuse, Complementary, Supplementary, Vertical, Linear Pair	Skills Sheets Lessons 1.2 and 1.3	Tues	
Tue	1.4 Polygons	Polygons – convex, concave, diagonals, naming, congruence, special polygons	P53 8-26 evens	Thurs	
	1.5 Triangles	Define triangle types, create types of triangles with patty paper	P58 5-14 all	Thurs	
Thurs	1.6 Special Quadrilaterals	Identifying quadrilaterals, special quadrilateral diagonal properties	Skill Sheets Lessons 1.5 and 1.6	Mon	
	1.7 Circles	Circle terms and definitions, if there is time			

Handy checklist!

	I labeled my paper with Name, Date, Assignment and class #
	I had my work completely finished at the beginning of class
	I did my work in pencil and used a ruler
	I wrote in legible handwriting that was not too small or too light.
	I left enough space to allow each line to be read, and to have room for comments or corrections.
	I did the problems in order down the page with a ruler line between each problem for any complex or multi-step problems
	I clearly identified the problem number and given information
	I showed my setup for the problem and neatly showed my steps in solving the problem
	I clearly labeled and identified my final answer, and stated it in a sentence for word problems
	I corrected any problems during class that I did not get correct
	My paper is neat, without spiral notebook edges, tears, stickiness
