B. Clarification of Previous Interpretation: Setback Exception for Driveways  

MOVE to adopt the following interpretation of Article 8, Section B.1.c of the Zoning Regulations as it relates to driveways accessing townhouses with integrated garages:

Consistent with the interpretation issued by the Commission in September 2020, the exception to minimum setback requirements does not apply to driveways serving townhouses with integrated garages where such driveways are not providing direct access from the public right-of-way to the individual garage. This interpretation is based on the determination that these driveways are integral to providing access to the garages, similar to driveway that is accessing single-loaded parking on one side, which was identified as being subject to the setback requirements in the Commission’s September 2020 interpretation. Furthermore, the Commission determined that the exception to the Regulations was not intended to apply to driveways with high volumes of traffic.
