Public Comment

PJ Run

The details of the event were presented by J. St. Louis and J. Tracey.

Motion made by D. Dilaj, seconded by K. Danielson to approve the event as presented.

Gurleyville Road Bridge Replacement

D. Dilaj stated the design of the replacement of the Gurleyville Road Bridge is 60% complete. It is a complete re-construction with an extensive detour. The current plan is for a detour for people to use Chaffeeville Road to get to Route 195. This will be occurring in the 2027 construction season. The committee discussed possibly using a message board to alert people far in advance of the construction. The committee also suggested adding a unapproved through road sign the Stonemill Road to avoid everyone going that route.
