- A. [Mansfield 2021 MS4 Annual Report Permit-Derek Dilaj \(tentative\)](#)

The General Permit for the Discharge of Stormwater from Small Municipal Separate Storm Sewer Systems (MS4 General Permit) is the product of a mandate by the U.S. Environmental Protection Agency (EPA) as part of its Stormwater Phase II rules in 1999. This general permit requires each municipality to take steps to keep the stormwater entering its storm sewer systems clean before that stormwater enters water bodies. In 2017, Mansfield was required to comply with the MS4 General Permit to discharge stormwater into CT's water bodies. Under this permit Mansfield must submit a Stormwater Management Plan identifying 6 minimum control measures that a municipality will undertake to prevent and/or treat polluted run off. Derek Dilaj will review the 2021 MS4 Annual report.
