DISCUSSION ITEMS

PZC-Initiated Amendments to Articles 4, 7, 8, and 10 of the Mansfield Zoning Regulations related to multi-family residential uses, group dwelling uses, density bonuses for affordable housing, and changes to the ARH, DMR, PVRA, and SER-HO districts. The proposed amendments would also change the way in which Articles are referenced throughout the entirety of the Zoning Regulations. (P907-49)

Painter provided an overview of the proposed regulations and noted that the public hearing is scheduled for September 8, 2020. Ferrigno expressed concern that the level of detail in the proposed regulations could discourage developers from pursuing projects in Mansfield as well as impact the overall cost and viability of projects. Painter noted that the PZC Regulatory Review Committee took extensive feedback from the public and development community as it was developing the regulations. Painter also noted that the regulations include standards as well as guidelines that are intended to provide developers with clearer direction on expectations as part of the special permit process.
