

Kelly M. Lyman
Superintendent

February 11, 2022

Dear Mansfield Staff and Families,

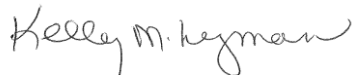

The number of COVID-19 cases within the Mansfield community continued its decline this week while the number of cases among school members stayed about the same. Last week I reported the number of cases for 4 days as we were off on Friday. The number of cases reported this week is slightly higher as they account for some cases that I suspect we would have learned about on Friday had we been in school.

The total number of COVID-19 cases among all Mansfield schools since February 3 is 14. Five cases were reported at Vinton School, 4 at Mansfield Middle School, 3 at Southeast, and 2 at Goodwin. It appears that transmission often occurs within the home setting.

We are encouraged by the continued decline in positive cases (zero today!) and hope that this latest wave of the virus will soon be behind us.

Enjoy tomorrow's beautiful weather!

Sincerely,

Kelly M. Lyman
