1.10 INTERPRETATION OF BIDS

Qualified bids are subject to rejection in whole or in part. A qualified bid is defined as one limiting or modifying any of the terms and conditions and/or specifications of the invitation to bid.

Bidders are cautioned to initial erasures, alterations or corrections. Failure to do so may result in rejection of bids.

Unless limited by the term no substitute, the use of the name of a manufacturer or of any particular make, model, or brand in describing an item, does not restrict bidders to that manufacturer or specific article, this means being used simply to indicate the character or quality of the article so described; but the article offered must be of such character and quality that it will serve the purpose for which it is to be used, equally as well as that specified, and shall be deemed by the Town to be so warranted by the bidder. Bids on comparable items must clearly slate the exact article being offered, and bidder shall furnish such other information concerning the article being offered as necessary to evaluate its acceptability for the purpose intended. If the bidder does not indicate that the article he offers is other than as specified, it will be understood that the bidder is offering the article exactly as specified.

The Director of Finance reserves the right to reject any or all bids, or the bid for any one or more commodities or contracted services included in any or all bids, to waive any Informality in bids and unless otherwise specified, to buy any part or the whole from one or more bidders when it is to the Town's best interest to do so.

1.11 INTERPERTATION – PAROL EVIDENCE

The contract pursuant to this solicitation is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of such Contract. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in the contract. Acceptance or acquiescence in a course of performance rendered under the contract shall not be relevant to determine the meaning of the contract even though the accepting or acquiescing party had knowledge of the nature of this performance and opportunity to object.

1.12 DELIVERY

All prices bid must be on the basis of F.O.B. destination, inside delivery, unloaded and assembled unless otherwise indicated in the bidding documents. The contractor shall be responsible for all freight costs.

It shall be understood and agreed that any and all commodities furnished shall comply fully with all applicable O.S.H.A., and Federal and State laws and regulations.

Any equipment delivered must be standard new equipment, latest model, except as otherwise specifically stated in bidding documents. Where any part or nominal appurtenances of equipment are not described, it shall be understood that all the equipment and appurtenances which are usually provided in the manufacturer's stock model shall be furnished.

Delivery must be made as ordered and in accordance with the bidding documents. The decision of the Director of Finance as to reasonable compliance with delivery terms shall be final. Burden of proof of delay in receipt of order shall rest with the Contractor.

Commodities shall be securely and properly packed for shipment according to accepted standard commercial practice, without extra charge for packing cases, bailing or sacks, the containers to remain the property of the Town unless otherwise stated in the bidding documents.

1.13 AWARD OF CONTRACT

Award will be made to the lowest responsible qualified bidder.

A Bidder, if requested, must be prepared to present evidence of experience, ability, service facilities and financial standing necessary to meet satisfactorily the requirements set forth or implied in the bid.

The Director of Finance reserves the right to reject the bid of any bidder in default of any prior contract or guilty of misrepresentation, or of any company having as its sales agent or representative, or member of the firm any individual in default or guilty of misrepresentation.

Any and all work will need to be accomplished in the projected timeframes put forth in this Request for Proposal, or in any attached listing of projects by location and projected completion work dates. Contract award may be as a package or broken down by each service based on the best value for the Town of Mansfield.

Each bid will be received, with the understanding that the acceptance in writing by the Director of Finance of the offer to furnish any or all of the commodities described there in, shall constitute a contract between the Bidder and the Town, which shall bind the Bidder on his/her part to furnish and deliver the commodities at the prices given and in accordance with conditions of said accepted bid and specifications.

No alterations or variations of the terms of the contract shall be valid or binding upon the Town unless made in writing and signed by the Director of Finance. The placing, in the mail to the address given in the bid or delivery of a notice of award to a bidder will constitute notice of acceptance. When so requested by the Director of Finance, the Contractor shall execute a formal contract with the Town for the complete performance specified therein. The contract may be terminated or annulled by the Director of Finance upon nonperformance of contract terms or failure of the Contractor to furnish performance surety and/or insurance

certificates within ten (10) days from date of request. Any unfulfilled deliveries against such contract may be purchased from other sources at the Contractor's expense.

Failure of a Contractor to deliver within the time specified or within reasonable time as interpreted by the Director of Finance or failure to make replacements of rejected commodities when so requested, immediately or as directed by the Director of Finance, will constitute authority for the Director of Finance to purchase in the open market, the commodities to replace the commodities rejected or not delivered. The Director of Finance reserves the right to authorize immediate purchased in the open market against rejections on any contract when necessary. On all such purchases, the Contractor agrees promptly to reimburse the Town for excess costs occasioned by such purchases. Such purchases will be deducted from the contract quantities.

However, should public necessity demand it, the Town reserves the right to use or consume commodities delivered which are substandard in quality, subject to an adjustment in price to be determined by the Director of Finance.

1.14 BEST CUSTOMER PREFERENTIAL PRICING

The contractor shall reduce the contract price of any good or service for which a contract award is executed to an amount equal to or lower than any pricing offered to any other commercial customer or the general public. This reduction in price shall be applied when the goods or services are identical to those contracted for and quantities requested meet any minimum quantity requirements for such pricing.

1.15 CERTIFICATION

By signature of the proposer, the proposer certifies:

The submission of the offer did not involve collusion or other anticompetitive practices.

The proposer had not given, offered to give, not intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted offer. Failure to provide a valid signature affirming the stipulations required by this clause shall result in the rejection of the offer. Signing the offer with a false statement shall void the offer, any resulting Contract and may be subjected to legal remedies by law.

The proposer submitting the offer hereby certifies that the Individual signing the offer and/or Contract is an authorized agent for the proposer and has the authority to bind the proposer to the contract.

The offer shall substantially conform to the terms, conditions, specifications and other requirements set forth within the text of the request for bid. The Town reserves the right to clarify any contractual terms with the concurrence of the Contractor. However, any substantial nonconformity in the offer, as determined by the Town Director of Finance, shall be deemed nonresponsive and the offer rejected.

Any work necessary to be performed after regular hours, on Sundays or Legal Holidays, shall be performed without additional expense to the Owner.

4. Contractor's Title to Material

No materials or supplies for the work shall be purchased by the Contractor or by any Subcontractor subject to any chattel mortgage or under a conditional sale contract or other agreement by which an interest is retained by the seller. The Contractor warrants that he has good title to all materials and supplies used by him in the work, free from all liens, claims or encumbrances.

5. Inspection and Testing of Materials

All materials and equipment used in the construction of the project shall be subject to adequate inspection and testing in accordance with accepted standards. The laboratory or inspection agency shall be as stipulated by the Owner. The Owner will pay for all laboratory inspection services directly, and not as part of the contract.

The Contractor shall supply in a timely fashion samples of any materials required to be tested along with certified test reports and certificates of compliance when required. No material shall be incorporated into the work without testing. Any material incorporated into the work and found to be deficient will be removed or replaced at the Contractor's sole expense.

Materials of construction, particularly those upon which the strength and durability of the finished product may depend, shall be subject to inspection and testing to establish conformance with specifications and suitability for users intended.

6. "Or Equal" Clause

Whenever a material, article or piece of equipment is identified in the project documents by reference to manufacturers' or vendors' names, trade-names, catalogue numbers, etc., it is intended merely to establish a standard; and, any material, article or equipment of other manufacturers and vendors which will perform adequately the duties imposed by the general design will be considered equally acceptable provided the material, article, or equipment so proposed is, in the opinion of the Town, of equal substance and function. It shall not be purchased or installed by the Contractor without the Town's written approval.

7. Patents

The Contractor shall hold and save the owner and its officers, agents, servants, and employees harmless from liability of any nature or kind, including cost and expenses for, or on account of, any patented or unpatented invention, process, article, or appliance manufactured or used in the performance of the contract, including its use by the owner, unless otherwise specifically stipulated in the Contract Documents. If the Contractor uses any design, device or materials covered by letters, patent or copyright, he shall provide for such use by suitable agreement with the Owner of such patented or copyrighted design, device or material. It is mutually agreed and understood that, without exception, the contract prices shall include all royalties or costs arising from the use of such design, device or materials, in any way involved in the work. The Contractor and/or his Sureties shall indemnify

and save harmless the Owner of the project from any and all claims for infringement by reason of the use of such patented or copyrighted design, device or materials or any trademark or copyright in connection with work agreed to be performed under this contract, and shall indemnify the Owner for any cost, expense or damage which it may be obliged to pay by reason of such infringement at any time during the prosecution of the work or after completion of the work.

8. Surveys, Permits and Regulations

Unless otherwise expressly provided for in this contract, the Owner will furnish to the Contractor control survey points only for the execution of the work, and the Town shall provide all surveying necessary for the layout of the work. The Contractor shall execute, procure and pay for all permits, licenses and approvals necessary for the execution of his contract. The Contractor shall comply with all laws, ordinances, rules, orders, and regulations relating to the performance of the work.

The Contractor is hereby notified that all permit and permit applications contained herein shall be made a part of this Contract, and that the Contractor shall be bound to comply with all requirements of such permits and permit applications as though the Contractor were the permittee. If at the time the permit is received its contents differ from that which is outlined in the application, the permit shall govern.

9. Contractor's Obligations

The Contractor shall and will, in good workmanlike manner, do and perform all work and furnish all supplies and materials, machinery, equipment, facilities and means, except as herein otherwise expressly specified, necessary or proper to perform and complete all the work required by this contract within the time herein specified, in accordance with the provisions of this contract and said specifications and in accordance with the plans and drawings covered by this contract and any and all supplemental plans and drawings, and in accordance with the directions of the Town as given from time to time during the progress of the work. 10. Weather Conditions

In the event of temporary suspension of work, or during inclement weather, or whenever the Town shall direct, the Contractor will, and will cause his Subcontractors to protect carefully insofar as is reasonably possible given the nature of the work, his and their work and materials against damage or injury from the weather. If, in the opinion of the Town, any work or materials shall have been damaged or injured by reason of failure on the part of the Contractor or any of his subcontractors to so protect his work, such material shall be removed and replaced at the expense of the Contractor.

11. Protection of Work and Property - Emergency

The Contractor shall at all times safely guard the Owner's property from injury or loss in connection with this contract. He/She shall at all times safely guard and protect his own work, and that of adjacent property, from damage. The Contractor shall replace or make good any such damage, loss or injury unless such be caused directly by errors contained in the contract or by the Owner, or his duly authorized representative.

In case of an emergency which threatens loss or injury of property and/or safety of life, the Contractor will be allowed to act, without previous instructions from the Town, in a diligent manner. He shall notify the Town immediately thereafter. Any claim for compensation by the Contractor due to such extra work shall be promptly submitted to the Town for approval.

Where the Contractor has not taken action but has notified the Town of an emergency threatening injury to persons or damage to the work of any adjoining property, he shall act as instructed or authorized by the Town.

The manner of reimbursement claimed by the Contractor on account of any emergency action shall be determined in the manner provided in Paragraph 14 of the General Conditions.

12. Reports, Records, and Data

The Contractor shall submit to the Owner, in a format satisfactory to the Town, such schedule of quantities and costs, progress schedules, payrolls, reports, estimates, records and other data as the Owner may request concerning work performed or to be performed under this contract. Certified payroll records indicating the payment of all labor on this contract shall be submitted to the Owner along with all requests for payment.

13. Superintendence by Contractor

At the site of the work, the Contractor shall designate one person who shall have full authority to act for the Contractor. It is understood that such representative shall be acceptable to the Town.

14. Changes in Work

No changes in the work covered by the approved contract documents shall be made without having prior written approval of the Owner. Charges or credits for the work covered by the approved change shall be determined by one or more, or a combination of the following methods:

- A. Unit bid prices previously approved
- B. An agreed lump sum
- C. The actual cost of:

1. Labor, including foremen;
2. Materials entering permanently into the work;
3. The ownership or rental cost of construction plant and equipment during the time of use on the extra work;
4. Power and consumable supplies for the operation of power equipment;
5. Insurance;
6. Social Security and old age and unemployment contributions.

To the cost under 14 (c), there shall be added a fee to be agreed upon but not to exceed fifteen percent (15%) of the estimated cost of the work. The fee shall be compensation to cover the cost of supervision, overhead, bond, profit and any other general expenses.

15. Extras

Without invalidating the contract, the Owner may order extra work of the kind bid upon or make changes by altering, adding to or deducting from the work, the contract sum being adjusted accordingly. All the work of the kind bid upon shall be paid for at the price stipulated in the proposal, and no claims for any extra work or materials shall be allowed unless the work is ordered in writing by the Owner and the price is stated in the order.

16. Time for Completion and Liquidated Damages

It is hereby understood and mutually agreed by and between the Contractor and Owner, that the date of beginning and the time for completion as specified in the contract of work to be done hereunder are ESSENTIAL CONDITIONS of this contract; and it is further mutually understood and agreed that the work embraced in this contract shall be commenced on or before the date specified.

The Contractor agrees that said work shall be prosecuted regularly, diligently, and uninterruptedly at such rate of progress as will insure full completion thereof within the time specified. It is expressly understood and agreed, by and between the Contractor and the Owner, that time for the completion of the work described herein is a reasonable time for the completion of the same, taking into consideration the average climatic range and usual industrial conditions prevailing in this locality.

If said Contractor shall neglect, fail or refuse to complete the work within the time herein specified, or any proper extension thereof granted by the Owner, then the Contractor does hereby agree, as a part consideration for the awarding of this contract, to pay the Owner the amount specified in the contract, not as a penalty but as liquidated damages for such breach of contract as hereinafter set forth, for each and every calendar day that the Contractor shall be in default after the time stipulated in the contract for completing the work.

It is further agreed that time is of the essence of each and every portion of this contract and of the specification wherein a definite and certain length of time is fixed for the performance of any act whatsoever; and where under the contract an additional time is allowed for the completion of any work, the new time limit fixed by such extension shall be of the essence of this contract. Provided, that the Contractor shall not be charged with liquidated damages or any excess cost when the Owner determines that the Contractor is without fault and the Contractor's reasons for the time extension are acceptable to the Owner; Provided further, that the Contractor shall not be charged with liquidated damages or any excess cost when the delay in completion of the work is due:

- A. To any preference, priority or allocation order duly issued by the government of the United States or the State of Connecticut.
- B. To unforeseeable cause beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, or of the public enemy, acts of the Owner, acts of another contractor in the performance of a contract with the Owner, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and severe weather;
- C. To any delays of subcontractors or suppliers occasioned by any of the causes specified in subsections a and b of this article: Provided further, that the Contractor shall, within ten (10) days from the beginning of such delay, unless the Owner shall grant a further period of time prior to the date of final settlement of the contract, notify the Owner, in writing, of the cause of delay, who shall ascertain the facts and extent of the delay and notify the Contractor within a reasonable time of its decision in the matter.

17. Correction of Work

All work, all materials, whether incorporated in the work or not, all processes of manufacture, and all methods of construction shall be at all times and places subject to the inspection of the Owner who shall be the final judge of the quality and suitability of the work, materials, processes of manufacture and methods of construction for the purposes for which they are used. Should they fail to meet his approval they shall be forthwith reconstructed, made good, replaced and/or corrected, as the case may be, by the Contractor at his own expense. Rejected material shall immediately be removed from the site. If, in the opinion of the Owner, it is undesirable to replace any defective or damaged materials or to reconstruct or correct any portion of the work injured or not performed in accordance with the contract documents, the compensation to be paid to the Contractor hereunder shall be reduced by such amount as in the judgment of the Owner shall be equitable.

18. Conditions Found Different

Should the Contractor encounter conditions at the site materially differing from those indicated in the contract documents, he shall immediately give notice to the Owner of such conditions before they are disturbed. The Owner will thereupon promptly investigate the

conditions, and if he finds that they materially differ from those indicated in the Specifications, he will at once make such changes in the contract documents as he may find necessary, and any increase or decrease of cost resulting from such changes is to be adjusted in the manner provided in paragraph 14 of the General Condition.

19. Claims for Extra Costs

No claim for extra work or cost shall be allowed unless the same was done in pursuance of a written order of the Owner, as aforesaid, and the claim presented with the first estimate after the changed or extra work is done. When work is performed under the terms of subparagraph 14(c) of the General Conditions, the Contractor shall furnish satisfactory bills, payrolls, and vouchers covering all items of cost and, when requested by the Owner, give the Owner access to accounts relating thereto.

20. Right of the Owner to Terminate Contract

If the Contractor is adjudged bankrupt, or if he/she makes a general assignment for the benefit of his creditors, or if a receiver is appointed on account of his insolvency, or if he persistently or repeatedly refuses or fails, except in cases for which extension of time is provided, to supply enough properly skilled workmen or proper materials, or if he/she fails to make the prompt payment to Subcontractors or for materials or labor, or persistently disregards laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise is guilty of a substantial violation of a provision of the Contract Documents, then the Owner, providing sufficient cause exists to justify such action, may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven days written notice, terminate the employment of the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon owned by the Contractor and may finish the work by whatever method he may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the work is finished.

If the unpaid balance of the Contract Sum exceeds the costs of finishing the work, such excess shall be paid to the Contractor. If such costs exceed the unpaid balance, the Contractor shall pay the difference to the Owner. The amount to be paid to the Contractor or to the Owner, as the case may be, shall be in the manner provided in Section 22, and this obligation for payment shall survive the termination of the Contract.

If the work is stopped for a period of thirty days under an order of any court or other public authority having jurisdiction, or as a result of an act of government, such as a declaration of a national emergency making materials unavailable, through no act or fault of the Contractor or a Subcontractor or their agents or employees or any other persons performing any of the work under a contract with the Contractor, or if the work should be stopped for a period of thirty days by the Contractor because the Owner has not made payment thereon as provided in Section 22, then the Contractor may, upon seven additional days written notice to the Owner, terminate the Contract and recover from the Owner payment for all work executed

and for any proven loss sustained upon any materials, equipment, tools, construction equipment and machinery, including reasonable profit and damages.

21. Construction Schedule

Immediately after execution and delivery of the contract, the Contractor shall deliver to the Town an estimated construction progress schedule and bar chart both electronically and in a form satisfactory to the Town showing the proposed dates of commencement and completion of each of the various subdivisions of work required under the contract documents and the monetary values associated with each segment or subdivision of work. Said proposed schedule shall not be official until accepted and approved by the Owner. Contractor shall update this construction schedule monthly or as required by the Owner such that his work can be coordinated with the other contractual work proceeding in this area. Such schedule must provide for the coordination of work with other work being done in the Storrs Center area.

22. Payment To Contractor (Also see Sections 35 & 36)

The Town shall make monthly payments to the Contractor on the basis of a duly certified and approved estimate of the work performed under the contract. Final payment shall be made after the final completion and acceptance of all work covered by the contract.

The Contractor agrees that he will indemnify and save the Owner harmless from all claims growing out of the lawful demands of subcontractors, laborers, workmen, mechanics, materialmen, and furnishers of machinery and parts thereof, equipment, power tools, and all supplies, including commissary, incurred in the furtherance of the performance of this contract. The Contractor shall, at the Owner's request, furnish satisfactory evidence that all obligations of the nature hereinabove designated have to be paid, discharged, or waived. If the Contractor fails to do so, then the Owner may, after having served written notice on said Contractor, either pay unpaid bills, of which the Owner has written notice, direct, or withhold from the Contractor's compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon full payment to the Contractor shall be made in accordance with the terms of this contract, but in no event shall the provisions of this sentence be construed to impose any obligations upon the Owner to either the Contractor or his Surety.

In paying any unpaid bills of the Contractor, the Owner shall be deemed the agent of the Contractor, and any payment so made by the Owner, shall be considered as payment made under the contract by the Owner to the Contractor, and the Owner shall not be liable to the Contractor for any such payment made in good faith.

23. Acceptance of Payment as Release

The acceptance by the Contractor of payment shall be and shall operate as a release of the Owner of all claims and all liability to the Contractor for all things done or furnished in connection with this work. No payment, however, final or otherwise, shall operate to release

the Contractor or his Sureties from any obligation under this contract or the performance bond.

24. Contractor's Insurance

The Contractor shall procure and maintain insurance against claims for injuries or losses to persons or property that are alleged to have arisen in connection with activities of the Contractor and any agents, representatives, subcontractors or employees. Insurance companies must be licensed by the State of Connecticut or otherwise acceptable to the Town. The cost of such insurance, including required endorsements or amendments, shall be the sole responsibility of the Contractor. to maintain all required insurance in accordance with the Contract shall constitute a material breach of the Contract and shall subject the Contractor the Town's withholding liquidated damages from the Contractor in the amount of five percent (5%) of the total Contract price, as it may be amended by construction orders, subject to the continued commercial availability of such coverage.

The Contractor shall not commence work under this contract until he has obtained all the insurance required above of the Information for Bidders attached hereto and such insurance has been approved by the Town. The Contractor shall furnish the Town with certificates showing the type, amount, class of operations covered, effective dates, and dates of expiration of policies. The Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the work to bind subcontractors to the Contractor by terms of the General Conditions and

other contract documents insofar as applicable to the work of the subcontractors and to give the Contractor the same power as regards terminating any subcontract that the Owner may exercise over the Contractor under any provision of the contract documents.
